

NEW JERSEY SHORELINE

Ocean County

New Jersey has many things, but one of the most precious natural resources is the New Jersey shore. It covers 127 miles from Sandy Hook (Monmouth County) to the tip of Cape May.

It is one of the most versatile spots in New Jersey. You can play games, go on rides or watch parades and fireworks on the boardwalk. You can relax in the sun, go fishing on one of the many piers or search for sea shells or Captain Kidd's buried treasure.
